

Whisper: An Al Driven Efficiency Boost

Junchen You 47704554 junchen.you@uq.net.au

Background

Al can boost efficiency in multiple dimensions, as demonstrated by Google's multi-modal thesis [1].

Jsage

- 1. Education
- 2. Workplace
- 3. Brainstorm

Tasks related to these areas require high levels of efficiency, and AI could be of great help in these areas.

Problem To Solve

Website Implementation

Low-fidelity

High-fidelity

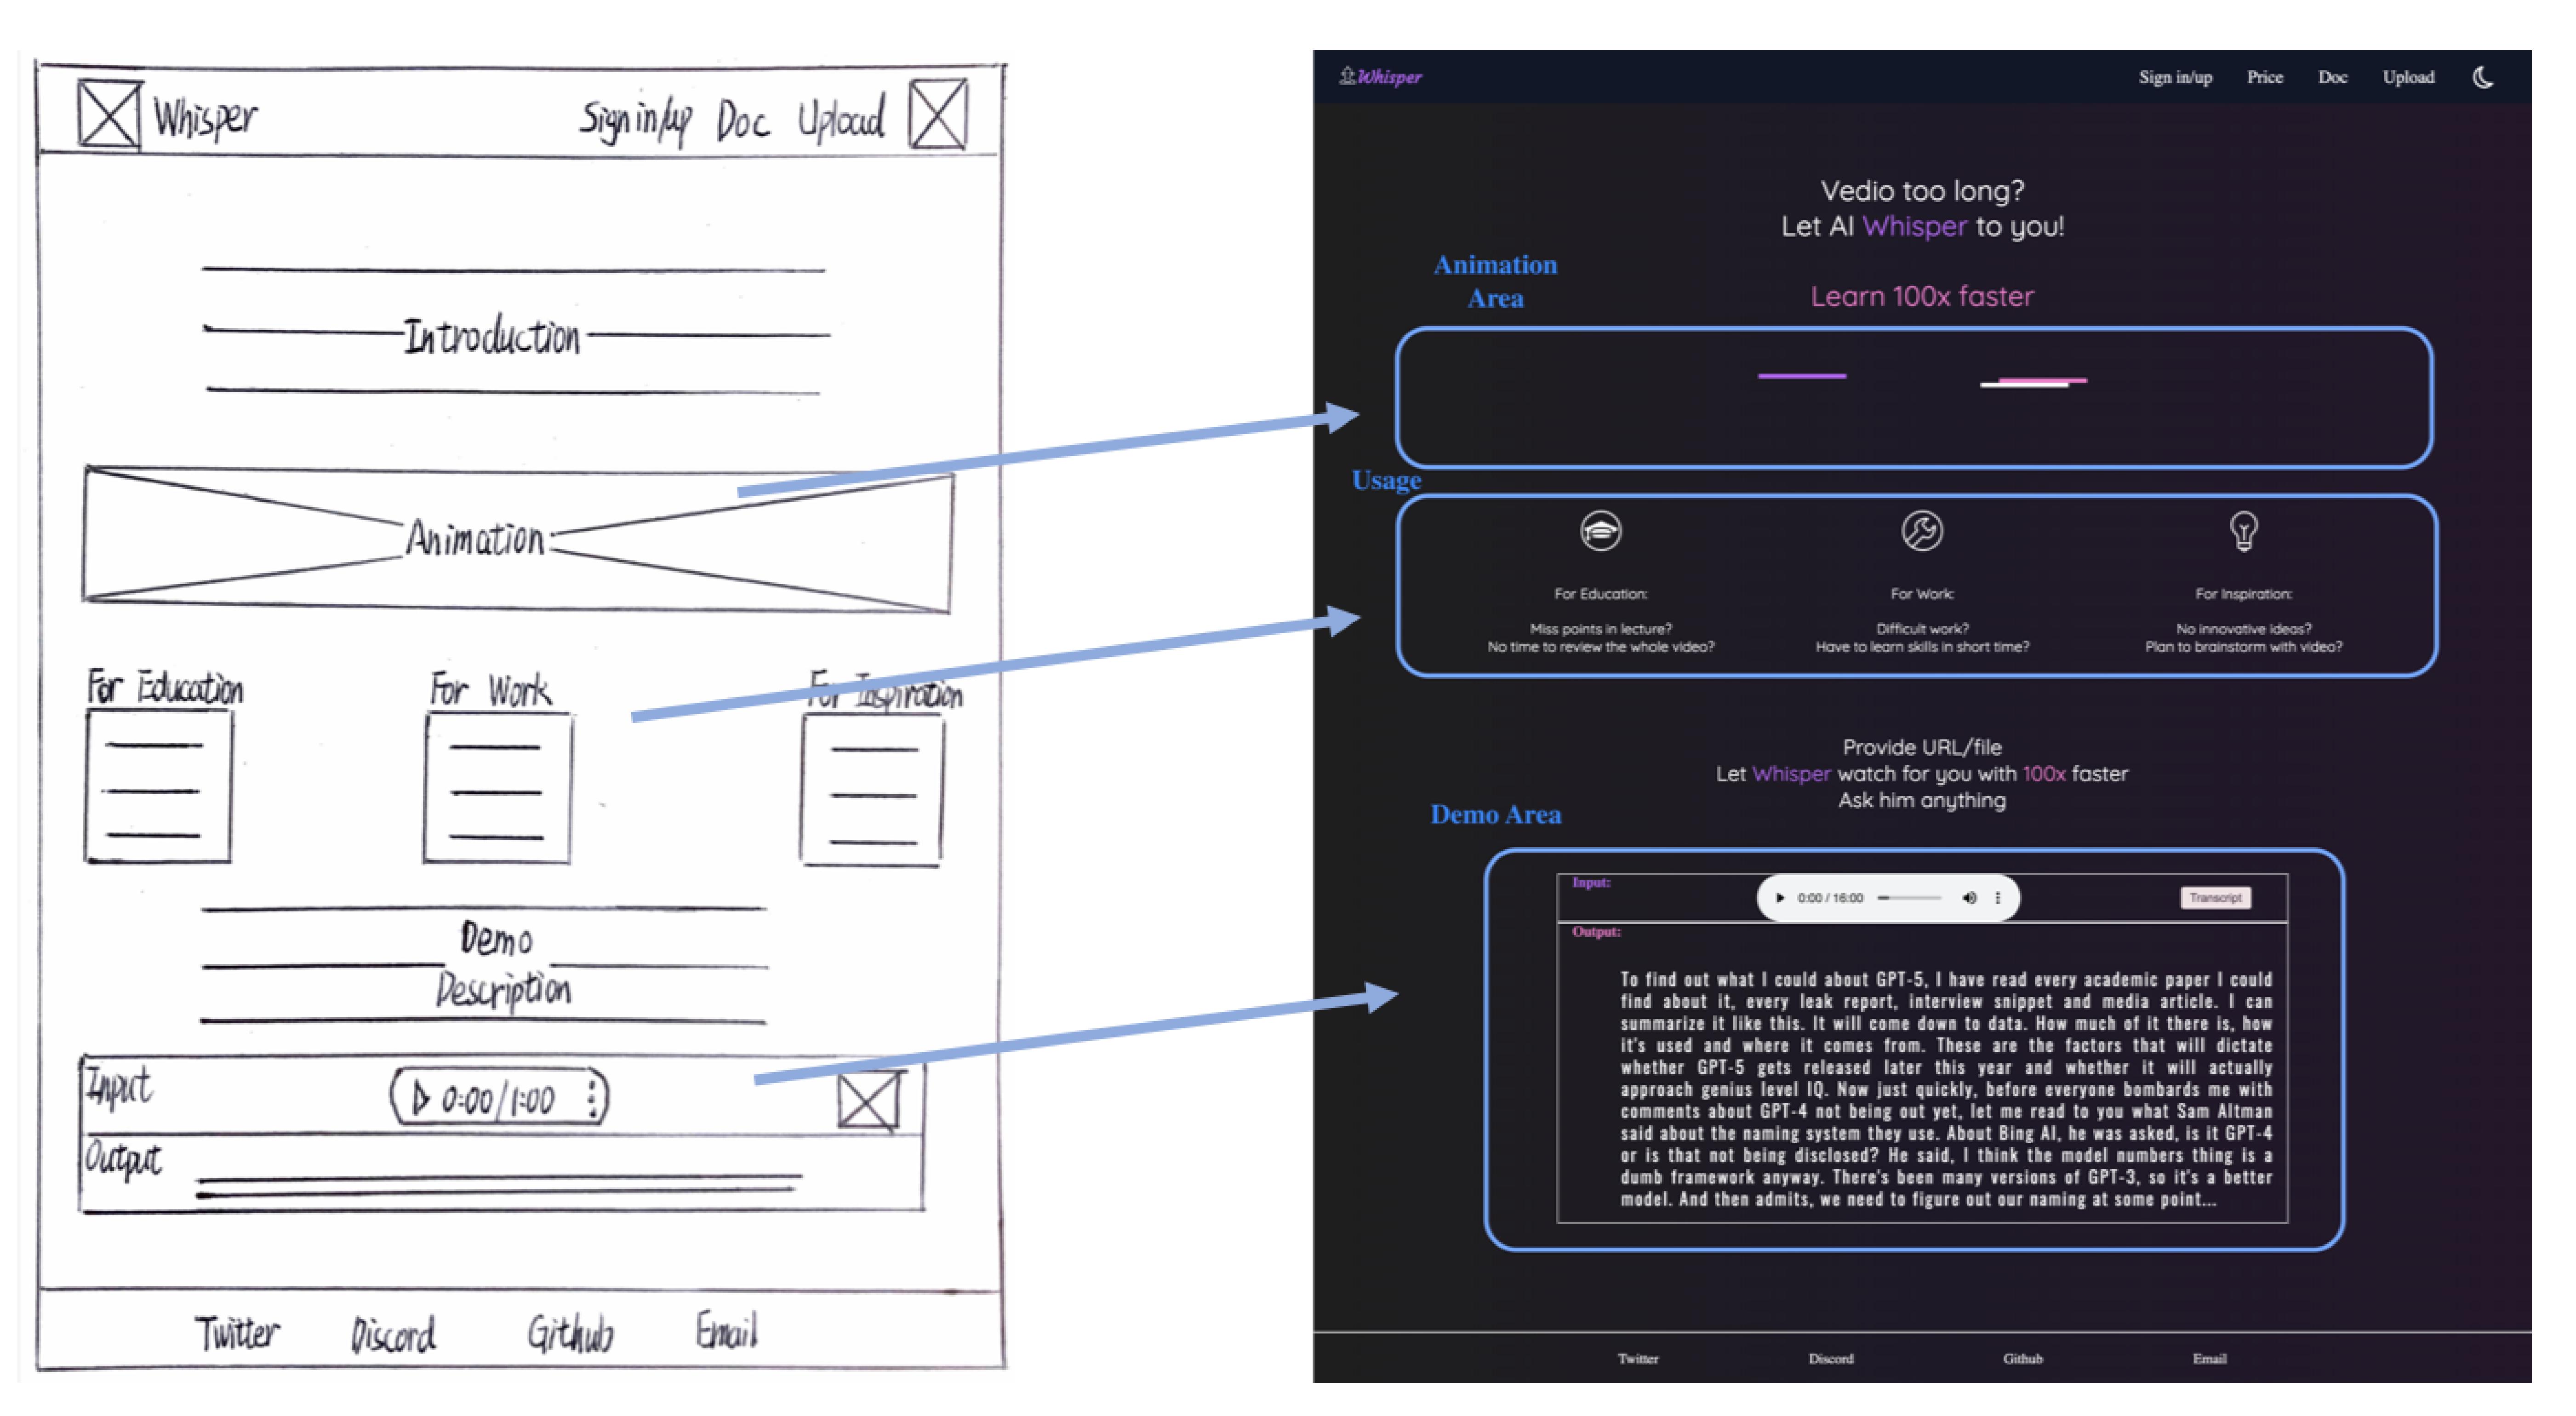

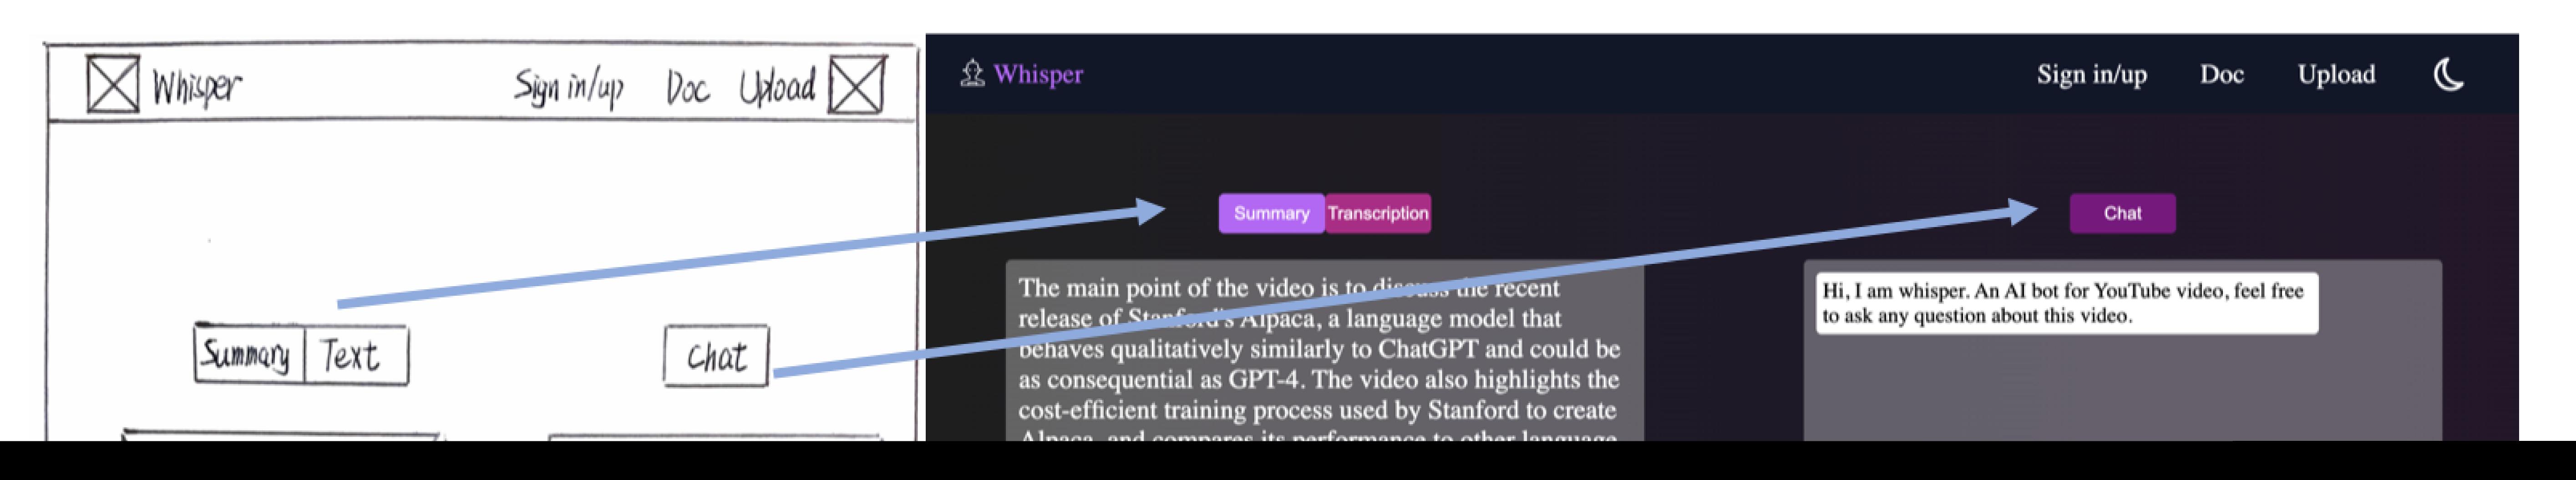

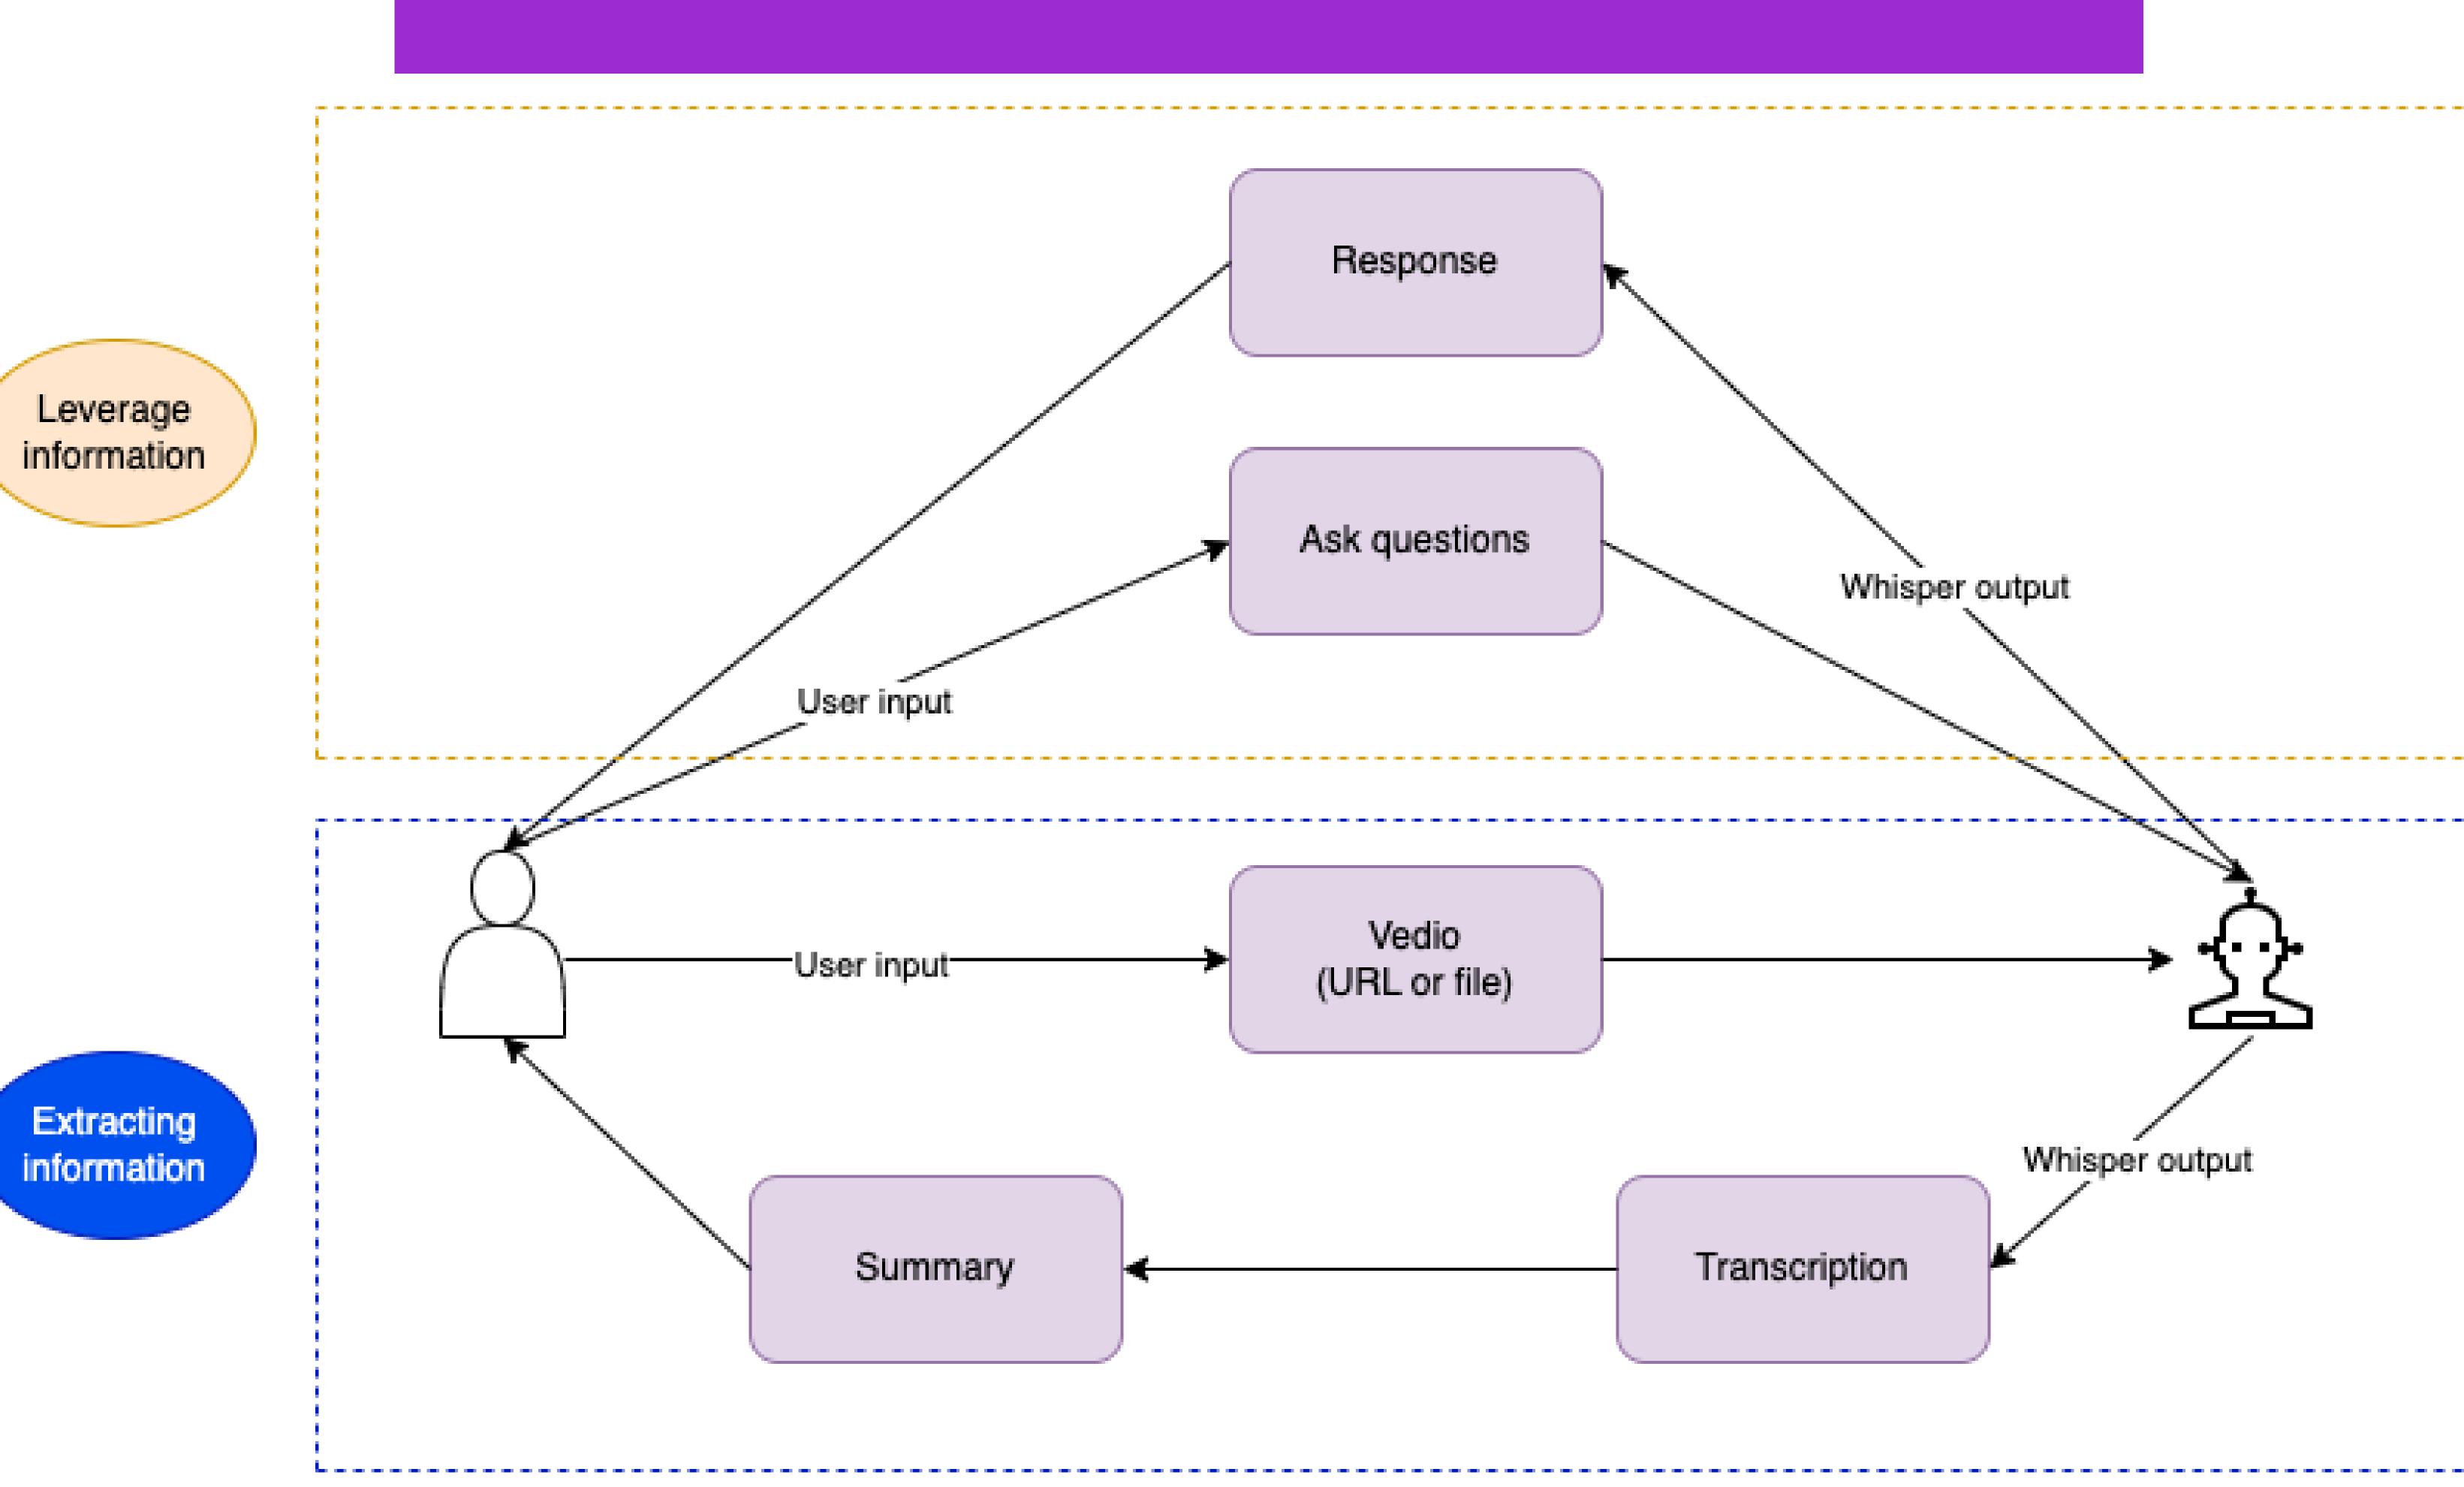

Figure 1 a, b, c, d are sketches of home page, chat page, history page and upload page respectively.

Morkflow.

Reflection

Lessons:

- Web Design should always take user as centered and get them involved in design process [2].
- Adopting new technology is a good practice of an interface.
- HTML defines the structure,
 CSS styles the appearance
